LACCD College Strategic Plan Self Inventory 2009-2010

This Strategic Plan Self Inventory is a follow up to a pilot undertaken by the colleges in 2008. It has been designed by the District Planning Committee to provide an indication of college achievements in relation to the 5 goals and 33 objectives established in the District Strategic Plan, 2006-2011. It is also meant to offer colleges the opportunity to collect and reflect on measures of success related to their own strategic goals and priorities. The results of the Self Inventory will be reported to the Board of Trustees during its annual Institutional Effectiveness review. Information provided by the Self Inventory will also be included in the "Institutional Effectiveness Report" for each college and will become part of the college's Strategic Plan report to the Board of Trustees.

Self Inventory Instructions:

Personnel associated with college strategic and educational planning efforts should meet with college Senior Staff and Senate Presidents to respond to the items in this survey. College teams should feel free to detail their responses or to offer additional information in the shaded boxes at the end of each section. Questions on the interpretation of prompts included in the Self Inventory should be forwarded to Maury Pearl, Interim Assoc. Vice Chancellor for Institutional Effectiveness:

pearlmy@email.laccd.edu

213-891-2115

Once completed, the survey should be forwarded via email to Maury Pearl by no later than Friday, March 25, 2011.

Thank you!
